Looking for anyone from Chemistry class that graduated in 1996. I am now living and working as a Metallurgist/Failure Analyst in Stavanger, Norway. Chemistry course from Bangor has helped my career. Also looking for anyone from A2 floor, Emrys Evans 1994.

The following verse appeared in a college publication (Omnibus?) some time in the 1950s: "A black scroll on the bleak scree - a language That's written in many. O weary mine of words to me, Thou bitter Rhondda beauty" Does anyone remember who the author was?

Announcing the Bangor International Alumni Support Network on LinkedIn, sign in at <http://www.linkedin.com/groups?mostPopular=&gid=64438> Check in if you are willing to host a visit in your country or help in any way for Bangor Alumni or students The idea is simple: as alumni many of us have gone onto international careers and are now based abroad. If you're willing to help other alumni who want to come to the country you're based in (for a visit, or their career), here's the place to let everyone know. There are also students (future alumini) who spend a year abroad as part of their studies, so this is also the place to let them know that they have people they can contact if needed. Basically, the idea is to give back as all alumni networks do and actively build a supportive international network. It could be to help people get professional contacts; help them settle in, show them around, etc...

Just trying to catch up with anyone who remembers me as 'Geordie Dave' between the alcohol filled years of 1983-1986. Founder member of the Merrydown society. 1st year at Reichel then in Brynkynalt. Kevin Heapey, Keith Robin, Bev Bowker, Nicholas J Burkinshaw. Wild days in the main bar, 3-legged pub crawl, The Castle discos. Great times and I even managed to get my degree in Mathematics. I came to Bangor in late September 1967 after having lived and worked for approx. 3 years in Kabul, Afghanistan. I stayed in the guest room at Neuadd Rathbone, 'Bangor's Hilton' as a postgraduate student. My mother was from South Wales (Olwen Williams) and my father Danish. Recently, I was in touch with Emeritus Professor, Carl James, from the Linguistics Dept. I work as the translator at the Embassy of India in Copenhagen and am also a translator of literature with a Capital L (from Danish into English). Hope to begin translating Hans Christian Andersen's

travelogues (5 volumes) in spring 2010 for publication, we hope, in UK and USA. I recently joined Facebook and was surprised to receive a message from Mary McKendry, who is in touch with somebody with the last name, Pankhurst. Would love to hear from former alumni who remember me. Anna Halager

Acme TV have been commissioned by BBC Radio Wales to produce an hour long radio documentary on the Beatles visit to Bangor in 1967. I was wondering whether any of you reading this were there and have memories to share about the event. The Beatles together with their partners and friends attended a conference run by The International Meditation Society whose guest speaker was the Maharishi Mahesh Yogi. They travelled by train to Bangor arriving on Friday the 25th of August and left by car on the Sunday. It was on that fateful day that they received the news of the death of their manager and friend Brian Epstein. If any of you reading this have any memories of this weekend, would you be so kind as to leave a reply or contact us via our e-mail address. Thanking you in anticipation. Death of Peter Jackson. I had a call from Annette Goodall, Pete Jackson's long-term girlfriend, on Saturday night to say that he had died on Wednesday night. Pete was at Bangor for a BSc in Biology - could have been Marine Biology - in 1966-1969. He had problems with jaundice around Easter time, and shortly afterwards had an operation in Gloucester when a tumour was found in his bile duct. He was in and out of hospital for radiotherapy and chemotherapy, and by summer seemed to be recovering. However, I spoke to him around July-August when he said that problems were

reoccurring, and that his doctors were reluctant to operate because the site was very close to major blood systems. He died at home in Cam, near Dursley in the company of Annette and his brother (I believe the only remaining brother of three), aged 58. For most of his working life, he taught at Fairfield Grammar School, Bristol, after returning from VSO in Nigeria and a short time teaching in Windsor. He will be cremated at Canford Crematorium, Westbury-on-Trym, Bristol at 3.00 on Friday, 20th October, and donations in his memory are requested for the Woodland Trust.

What I'm proposing is that person to spend about two weeks in my house in Spain with help in Spanish and visiting different places around and in return the same. That person would receive me in her house (any English speaking country: UK, Ireland, USA, Canada...) for the same period of time. No matter the level of Spanish (I'm also experienced teaching Spanish as a Foreign Language). If you are interested, please contact me at laura10marzo1979@yahoo.es A.S.A.P. A Hasta pronto!

Still no-one knowing the whereabouts of Bev Roberts. Bev's last known address on Anglesey in 1970. Home address was Isleworth/Hounslow. Hello. I was an exchange student from America through Beaver College in 1995. I am searching for two students who lived in my hall. The first is named Keith Timney and he was in the music program. The second is Magda Nkpang - she is from Nigeria and she was a business major. I would be interested to hear from anyone who lived in the C block of Emrys Evans in 1995. If you know any of these people, please be kind enough to forward them my e-mail address. Thanks, Katie

My personal details are above but I was not a student here but I am trying to locate a Stephen Henig who attended Bangor sometime in 1968. He taught at Pinkwell School, Harlington in 1965/66 then went onto Bangor. If anyone has any contact with him or can forward my details, it would be much appreciated. Thank you.

I've been attempting to trace people with PC-Plus CD-ROM of the electoral roll. There seems to be only one Pete Woodgate on the roll in the entire U.K. and it isn't the Pete Woodgate with whom I was at college in 1964. He didn't mind me contacting him. His reply said that he had traced his family tree back to the Norman Conquest and he would be happy to pass on the information to the Pete Woodgate from U.C.N.W.

When I took A-level physics I used the c.g.s. version of the book - Electricity and Magnetism by Noakes. Since 1974 virtually everyone uses M.K.S. or S.I units and I've never been able to learn the new system of units. Fortunately I've not been working in physics since 1974! I lost my original copy of Noakes, probably in Canada, but got permission from Macmillan publishers to photocopy a version in Liverpool library. Should anyone ever want a copy I'd be quite happy to oblige.

Just remembered this Board! My email has changed, since I slipped the leash of gainful employment. I now write and record faintly comic(al) songs for Internet distribution. My address is about to change as I head into the setting sun. Mike Bor and Colin Hines have just had their respective book launches - as Ian D. said, "there en 'alf bin some clever bastards. "Well done, boys. Mine's a pint, as usual. Anyone been rung up by a charming young lady from UCNW, keen to know what we're up to and what we thought of this and that? i had a very pleasant and open conversation with her. Several days later, my bank account was emptied, my mortgage was foreclosed and my children were declared illegitimate and proven to have been fathered by Peter Andre. Funny old world.

As a regular bloke By Walter Hubbard. As an ordinary guy, "bloke", could say after me British experience, the U.K was an unfamiliar term, the U.S. was more a common and familiar one. I was keener to the American way since my family and I, as Mexican citizens, lived "next" to the American Border, Tijuana or Nogales, therefore, always tried to get or jump onto the American novelties. When luckily got me a grant from the British Council, never thought it was going to be my pass to know and live the "love of the common people".....remember that song played by Paul Young which was an appealing way to get to know how ordinary British families lived...??

Suddenly, Dr Martens Shoes were not part of a fashion but the real life, "you know what I am saying?" (Have you got the "accent" ... still ...?) Those who are "young at heart" but old in age, just like me, are going to evocate and eventually recapture the essence of those 83/84 years with the help of that music played by the scarce radio channels on the air in the U.K., or seen at "Top of the Pops" on the telly when TV areas were luckily available at the dorms, since Bangladeshis and some other ethnic groups including Latinos were catching up with the English language using the T.V. News. Those people never understood that Coronation Street and stuff like that was good enough to solve the mystery of Welsh accent....!! "2000 thousand miles" by Pretenders was in the charts and that or even more, was the distance between our new home and the real one and certainly we were anxious to see the snow but not ready to feel the loneliness in it. Took me a couple of years to understand how good the education received was but I certainly realize that is more important the experience of being British at least for a while. Bangor was the location assigned by my tutors and I still recall staring at that little cartoon on the Student's Union wall saying: Here I am as a new student, thinking what others had thought before me about choosing BangorIf only I have had better grades....Certainly that was a joke but it made me shiver, was I going to live in that "world distant to London" village ...? Well, fortunately, I did. Bangor was the perfect town, the people and the place were exactly what I did not know and expected. Nothing like the US, only friendly people... I say, there was racism but it was mainly against those English Bast.... after a failed soccer match but Negroes, Latinos or Asians...! Took me a while to understand the difference between England and Wales and what the UK really was; I certainly knew the geo-political difference but not the historical one...! Immediately I was part of the town, became a regular attendant at local pubs, the White Lyon, the Menai Arms, and the King's Head, arm in arm with the milkman, the postman, and the rest of the UB40 fans; it is then when I happened to know that UB40 was more than a reggae group but a criticism against that almost perfect establishment perceived by me. For those who never knew, there was a Government's form to be filled in order to apply for an unemployment benefit when on the dole, namely the Unemployment Benefit form 40, therefore, the immediate acceptance of the musical group for those without a quid for a pint. Had the chance to return once, took me wife and the kids, the eldest was surprised of how "big" my room was but he loved what he saw and now we all expect he is big enough to return to that special and unique home.

Came to Bangor in 1961 to read Economics, dropped out and came back 1964, switched to English, graduated 1967 with profound sense of ignorance. Met some great people at Bangor but I was too immature to develop lasting relationships, in most cases. Later took an MA in Marketing at Lancaster (1979) and a Certificate in Accountancy at Arizona State, 2002. Been in the States 14 years. Now employed as a tax accountant in Los Angeles.

I was in love with her in 1997 - and I have some things of hers she would love to have. But I am not able to find her in any way. I am not sure if you can help me, but since this is one of my only changes I have to try. She lived in Bangor by then - just across the street from the pub - "the Globe" She have a brother called Brian. Any information - for official places to look, will be appreciated SO MUCH. Best regards Jakob le Fevre.

Ooops! Forgot to ask for assistance to find my very special and dear friend, Carol Dixon who completed her German degree in 1976 whilst I was finishing my Social Theory & Institutions degree. Carol went on to have a career in Human Resources/Personnel and, at one time, worked for Leicester City Council. I would love to hear from you/her and if anyone has any contact info I'd be really grateful to hear from you. Currently, I'm living in Australia, working with the Australian Institute of Aboriginal and Torres Strait Islander Studies (AIATSIS) completing my research on a deceased, neglected Australian researcher/author who left Australia and went to study and work overseas. The academic 'politics' surrounding the work, more specifically my research, would make a book in itself if it wasn't for the overbearing similarity to "days of our lives" and other such soapies! Look forward to hearing something from/about Carol, Marianne and Davina [see my last message]. Best regards. Chris Deighton

Bean and Mo have been delighted to get in contact with friends from 1966-70 through this message board. We wish those, and all others yet to contact us, the very best for 2004. We would love to hear from lots more people from that era before we reach the bus-pass age. Come on now, our one and only daughter, Sonya, has heard all the lurid stories and we'd like to prove to her that at least some of them are true!

I studied Sociology and Philosophy (plus History in my first year) from 1973 to 1976. I lived first in Plas Gwynn, then at Llanfair Hall (near Port Dinorwic), then at 13 The Crescent. My last address in the area was in Rachub, near Bethesda. I was a member of the Socialist Society. I have wonderful memories of my time at the university, the town, and the beautiful surrounding area. Those were special times. I have travelled much since leaving Bangor, but North Wales is still my favourite place. Is there anyone reading this who remembers me? Anyone who was in the Socialist Society during 73-76? Anyone who did Sociology or Philosophy from 73-76?

I was just looking on the web site because I'm planning to go to the Bangor Christmas Ball this year with Stacy and Adam, when I came across the alumni section. I'm glad really because as soon as I read Rebecca Ash's name it reminded me of the time we both went to church island, or that time we fell about laughing in Top Shop/girly clothes shop??, or the times we used to cram before an exam. All good times. I rather miss them, still I always was the sentimental type.....Mmmmmmm.....well, I do miss you anyway. So everybody who knew me how's it going, what you up to? I'm a trainee Barrister, called to the bar, but not quite qualified yet. At the moment I'm working as a paralegal in a solicitors firm in London. Stacy has just got her masters, she did very well. As for the rest of the crazy crew, well I don't want to bore you. This email is rather dull, and I suppose your return emails will be equally dull. Still, the first steps are usually the slowest. Soon I'll be keeping you updated with all my latest crazy antics.....and believe me there have been rather a lot. p.s. Rebecca Ash's email address doesn't work. Take care speak soon love Martin circa 1997 - 2000

Would be very interested to hear from anyone who was in the Agri Department ca 1960-64 under Prof Ian Lucas. Remember well the Rennie brothers - Dave and Iain; and quite a few others who were in the newly built Plas Gwyn with Bill Brown. Not sure if there have been any old Agri-Soc reunions over the years, or indeed if they still continue, but would like to learn more if they should still take place. During Bangor years I was quite active with the Film and Photographic societies, so possibly there may be others who will remember me. In my last year ('64) got recruited by the BBC onto their film training scheme, and four years later joined the Agricultural TV programmes unit in Birmingham - so the Bangor experience more than played its part!

If your body isn't up to bending to put on your boots... don't worry there's Curry on the Friday night, Golf on the Saturday and taking the p*** out of those still fit enough to play on the Sunday. Ken Lord was a biochemist and a long-jumper, not quite as good as me. Last heard of running a pool parlour in Hong Kong in the late 70's. The other is more difficult. His first name was Chris, last name was Polish, he was an American scholar and shared a house with a Sikh, Karan Kaler out in the sticks sometime around 76. Available evidence suggests I did English and history. Digs first year, Plas Gwyn 1965-66 (the "jet set" - no, we were trying to be ironic) tin shack in Llanfairfechan 66-67, two years in Anglesey, year in the States, back to Anglesey, Sue Adnams and I got married and still are, so any pissartists of our acquaintance in those exciting times, drop us a line -we're in touch with Vaughan Wilson and Ras nee Fletcher, Guido Casale, Val Hey, and recently Adrian Delso, but most of my exact contemporaries seem to have vanished. Saw Phil T a year or two ago, ditto Phredd McPherson. But whatever happened to . . . ? The rest of you.

Response to Stuart Angus.. Hey Stuart.. where have you been for the last 30 May Bank Holiday weekends?? Remember 'Old Stars' weekends when we were at college? When all those old f**ts with paunches and grey hair used to come back and try and puff and pant their way round Ffriddoed chasing the ball, pretending they were still 21? Well... we ARE now those 'Old F**ts' If you look further down the message board you will see input from Mick Hubbard, Paul McCarthy and Gerry Mulrooney... all affiliates of Old Stars. There are two footy club old boys societies thriving, one based in London, one in Liverpool. Events run throughout the year from the 3 main Golf events, to an annual dinner with wives in tow, to an annual pilgrimage to France 'en famille'. There's also a Newsletter and defamatory Annual. There are guys from 60's to the 90's amongst our membership, with a hardcore from the mid-70's and mid 80's at the fulcrum. Join Up Now..Old Stars Needs YOU!

Snowy here, forestry 1988-1991. I've lost touch with damn near everyone, including myself sometimes. I was a bouncer in the union back then, long hair big beard, one of the original "B-ZERO Boys" (no women in Emrys in those days); helped the police with their enquiries and jumped off Menai bridge for a laugh. Graduated, went skiing for two years, became a banker at JP Morgan in NY and am now regressing and doing my own thing again, check it out at "www.liteindustry.com". Anyway if you were a partner in crime, or anywhere else for that matter, drop me a line, particularly Steve Turner (banking) Dara Mullin (forestry) Mary Bright (English) and any other B0 veterans, I need drinking partners when I'm back on that side of the pond. Look forward to hearing from you, Snowy.

I posted a message last year and had a couple of responses. Would love to hear from more people who were around between 1987 and 1990. I lived in Rathbone in my first year, graduated in economics, and spent an awful lot of time in the Union. Any contact from anyone that will bring back memories of Bangor life will be happily received.

Hello, everyone from 86 - 89, especially those in the English and Drama departments, stage crew, Ents, Rag and Y Seren. I'd love to get back in contact with anyone who remembers me - not difficult, I was usually found in the main bar, wearing a leather jacket, clutching either a bottle of Grolsch or a bottle of merrydown, under a table, while trying to take photos of any gig happening. Especially would like to find out what happened to Jo Richardson, Eunice Faulkener, Di Unitt, TACKLE!! (AKA Alan Blastland), Simon Calkin, Andy Cheeseperon, Yoko, Lloyd, Spud, Sean Goode and Martin Goodlad, among others.

Bankers of the World (well, 1982-85 really). It will be 20 years ago next year since we started, all fresh faced and innocent. We were the Group who put the "Bang" in "Big Bang". I realise that most of us are now busy running huge multinationals, or in some cases Third World dictatorships, but how about a weekend off from being Masters of the Universe in 2002, back at the place where it all started? I tried to book Gregynog for a reunion but mention of the names Florey, Davies, Pawley & Tandon brought them out in a cold sweat. Whatever, hope that you are all healthy, wealthy and very happy.

I just discovered a really incredible messaging service that I think students from Bangor should be aware off. This new messaging service allows you to have a FREE e-mail, voice mail and fax account "3 in 1". This way, students can communicate with each other as much as they want, from wherever they are on the planet for FREE. It's really important nowadays for students to stay in touch. They can now subscribe at hotvoice.com It's really well worth it!
